We are really pleased that Bob is making the trip from Florida to attend our festival. Bob is a native of Connecticut and grew up in West Virginia. His musical journey started with trumpet in high school and then on to string instruments. In his 30s, he completed a music degree and studied with prominent jazz guitarist Sal Salvador (a Mass. native). In his 40-plus year banjo journey, he has played banjo/guitar in wide-ranging venues from solo performances to Dixieland bands to symphonies.
